We understand that some of these programs can become expensive, but please do not let finances get in the way of you or your student participating in these programs. Scholarships and sponsorships are available to those who need them and strongly encourage anyone who is worried about the financial side of things to speak with Robert so we can include everyone who wants to be a part. We firmly believe that finances should not bar the way of students pursuing their talents and dreams so we have programs in place to help those who need it.

***If you are interested in donating to our scholarship fund or sponsoring a student please contact Robert so we can make that happen!***
